Response to Arguments

1. In view of applicant's amendment filed 12 February 2004, the status of the application is as follows:

The objections of claims 3-5, indicated as containing allowable subject matter, are withdrawn in view of Applicant's amendment rewriting claim 3 into independent claim 1, and rewriting claim 5 into independent form. The claims now appear to be allowable.

35 U.S.C. §102(b) & §103(a) Rejections

The rejection of claims 1-2 are withdrawn in view of the aforementioned amendment (see above).

Allowable Subject Matter

3. The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art of record, JP 03-147323, fails to teach each and every limitation of the instant invention. Specifically, the JP 03-147323 reference fails to teach or suggest a sulfuric acid recycling apparatus further utilizing a plurality of partition plates and inclination plate for controlling flow of the sulfuric acid, as claimed in independent claim 1, or the claimed sulfuric acid recycling apparatus further utilizing a water drop storage bath, as claimed in independent claim 5, which are disclosed as essential elements of claimed invention as shown in independent claims 1 & 5.

4. For at least the foregoing reasons, claims 1-2, 4-5 and 8-11 (renumbered as claims 1-8) are believed to recite patentable subject matter.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
